Subject Index of Volume 69

ABS copolymer
photoinduced graft copolymerization of acrylamide onto styrene–butadiene–acrylonitrile copolymer, 121
Acrylamide
photoinduced graft copolymerization of acrylamide onto styrene–butadiene–acrylonitrile copolymer, 121
Aniline
photoluminescence of colloidal sulphide in the presence of aniline — study of the CdS-sensitised photocatalytic reaction, 91
Anthraquinone dyes
triplet formation in aminoanthraquinones and its importance for the catalytic fading of dye mixtures, 97
Anticancer agents
photosensitization with anticancer agents.
Perylenequinonoid pigments as new potential photodynamic therapeutic agents: formation of tautomeric semiquinone radicals, 191
Aqueous phase chemical system
temperature-dependent kinetics study of the aqueous phase reactions $OH + SCN^- \rightarrow SCNOH^-$ and $SCN + SCN \rightleftharpoons (SCN)^{2-}$, 17
Aromatic amines
prototropic equilibria of some aromatic amines in micellar solutions of sodium dodecylsulphate, 329
Aromatic moieties
orientational effects in intramolecular electronic energy transfer in bichromophoric molecules.
Triplet-triplet transfer, 287
photodegradation of surfactants.
Comparison of the photo-oxidation of the aromatic moieties in sodium dodecylbenzene sulfonate and in sodium phenyldodecyl sulfonate at TiO_2–H_2O interfaces, 251
Azo compounds
photochemical decomposition of azo compounds (a spin trap study), 295

Benzocyclobutenone
photochemistry and radiation chemistry of benzocyclobutenone: formation of an *o*-quinoid ketene and its radical cation, 185
Benzoin ethers
photolysis of benzoin ethers in glassy ethanol, 209
1,16-Benzoperiflanthene
photophysical properties of the non-alternant polycyclic aromatic hydrocarbons periflanthene and 1,16-benzoperiflanthene in solution, 27
Benzyl phenyl ethers
modification of photochemical reactivity on formation of inclusion complexes: photorearrangement of benzyl phenyl ethers and methyl phenoxyacetates, 201
Bichromophoric molecules
orientational effects in intramolecular electronic energy transfer in bichromophoric molecules.
Triplet-triplet transfer, 287
9-Bromoanthracene
reinvestigation of photochemical debromination of 9,10-dibromoanthracene and 9-bromoanthracene by amines (triethylamine or *N*,*N*-dimethylaniline) studied by nanosecond laser photolysis in acetonitrile at room temperature, 305

Cadmium sulphide
photoluminescence of colloidal cadmium sulphide in the presence of aniline — study of the CdS-sensitised photocatalytic reaction, 91
Carbonyl compounds
photochemical hydrogen abstraction by aromatic carbonyl compounds in zeolite slurries, 53
Catalytic fading
triplet formation in aminoanthraquinones and its importance for the catalytic fading of dye mixtures, 97
Chemical actinometers
a new sensitive chemical actinometer for time-resolved and continuous photochemistry: the DCM styrene dye, 351
Chemical vapour deposition
solid state photochemistry of $(C_2H_4(Ph_2P)_2)M(N_3)_2)$ (M ≡ Ni, Pd, Pt) on Si(111) surfaces, 229
Chlorophyll *a*
aggregation of chlorophylls *a* and *b* in polymer films and monolayers, 213
Chlorophyll *b*
aggregation of chlorophylls *a* and *b* in polymer films and monolayers, 213
Colour reversion
colour reversion of papers made from high yield pulp — a photochromic process?, 109
Coumarin laser dye
comparative triplet studies of 7-amino 4-methyl coumarin laser dye in nafion membranes and in homogeneous solutions, 345
Cyclodextrin
modification of photochemical reactivity on formation of inclusion complexes: photorearrangement of benzyl phenyl ethers and methyl phenoxyacetates, 201

DCM styrene dye
new sensitive chemical actinometer for time-resolved and continuous photochemistry: the DCM styrene dye, 351
Degradation
degradation of organophosphoric acids catalyzed by irradiated titanium dioxide, 357
Diamine ligands
photochemistry of bis(2,2′-bispyridine)(methylene-linked diamine)ruthenium(II) complexes, $[Ru(bipy)_2(L)]^{2+}$ ($L = H_2N$–$(CH_2)n$–NH_2; $n = 2$ and 3), 73
9,10-Dibromoanthracene
reinvestigation of photochemical debromination of 9,10-dibromoanthracene and 9-bromoanthracene by amines (triethylamine or *N*,*N*-dimethylaniline) studied by nanosecond laser photolysis in acetonitrile at room temperature, 305
Diketone moieties
orientation effects in intramolecular electronic transfer in bichromophoric molecules.
Triplet-triplet transfer, 287

9,10-Diphenylanthracene
photochemically induced dynamic nuclear polarization of 9,10-diphenylanthracene endoperoxide, 175

Electron transfer
excited state electron transfer reactions of tris(4,4′-dialkyl-2,2′-bipyridine) ruthenium(II) complexes with phenolate ions: structural and solvent effects, 83
Electronic transition energies
determination of electronic transition energies for bare molecules from solvent-shift measurements, 135
Endoperoxide
photochemically induced dynamic nuclear polarization of 8,10-diphenylanthracene endoperoxide, 175
Energy transfer
luminol chemiluminescence in micellar media. Energy transfer to fluorescein, 337

Flash photolysis
flash photolysis of di-μ-oxo-bis(oxo-molybdate(V)) acid aqueous solutions in the presence of excess chloride, 277
Fluorescein
luminol chemiluminescence in micellar media. Energy transfer to fluorescein, 337
Fluorescence
fluorescence excitation spectra of XeCl(B,D), KrCl(B), and XeBr(B) excimers, 127
photophysical properties of the non-alternant polycyclic aromatic hydrocarbons periflanthene and 1,16-benzoperiflanthene in solution, 27
quenching of SO_2 fluorescence in a magnetic field: experimental and theoretical analysis, 7
Free radical photoinitiators
polymeric and polymerisable free radical photoinitiators, 263

Glassy ethanol
photolysis of benzoin ethers in glassy ethanol, 209

High yield pulp
colour reversion of papers made from high yield pulp — a photochromic process?, 109
Homogeneous solution
comparative triplet studies of 7-amino 4-methyl coumarin laser dye in nafion membranes and in homogeneous solutions, 345
Hydrogen abstraction
photochemical hydrogen abstraction by aromatic carbonyl compounds in zeolite slurries, 53
Hydroxyanthraquinones
hydroxyanthraquinones as sensitizers of singlet oxygen reactions: quantum yield of triplet formation and singlet oxygen generation in acetonitrile, 155

Inclusion complexes
modification of photochemical reactivity on formation of inclusion complexes: photorearrangement of benzyl phenyl ethers and methyl phenoxyacetates, 201
Intersystem crossing
competition between intersystem crossing and intramolecular electron transfer in substituted benzoquinones, 143
Intramolecular electron transfer
competition between intersystem crossing and intramolecular electron transfer in substituted benzoquinones, 143

IR spectra
photochemically and radiation chemistry of benzocyclobutenone: formation of an *o*-quinoid ketene and its radical cation, 185
Irradiated TiO_2
degradation of organophosphoric acids catalyzed by irradiated titanium dioxide, 357

Luminol chemiluminescence
luminol chemiluminescence in micellar media. Energy transfer to fluorescein, 337

Magnetic field
quenching of SO_2 fluorescence in a magnetic field: experimental and theoretical analysis, 7
Manganese
heterogeneous photocatalytic oxidation of Mn(II) over TiO_2, 237
Methyl phenoxyacetates
modification of photochemical reactivity on formation of inclusion complexes: photorearrangement of benzyl phenyl ethers and methyl phenoxyacetates, 201
Micellar media
luminol chemiluminescence in micellar media. Energy transfer to fluorescein, 337
Micellar solutions
prototropic equilibria of some aromatic amines in micellar solutions of sodium dodecylsulphate, 329
Molecular halogens
fluorescence excitation spectra of XeCl(B,D), KrCl(B), and XeBr(B) excimers, 127
Molybdenum complexes
flash photolysis of di-μ-oxo-bis(oxo-molybdate(V)) acid aqueous solutions in the presence of excess chloride, 277
Monolayers
aggregation of chlorophylls *a* and *b* in polymer films and monolayers, 213

Nafion membranes
comparative triplet studies of 7-amino 4-methyl coumarin laser dye in nafion membranes and in homogeneous solutions, 345
Nanosecond laser photolysis
new sensitive chemical actinometer for time-resolved and continuous photochemistry: the DCM styrene dye, 351
reinvestigation of photochemical debromination of 9,10-dibromoanthracene and 9-bromoanthracene by amines (triethylamine or *N*,*N*-dimethylaniline) studied by nanosecond laser photolysis in acetonitrile at room temperature, 305
2-Naphthol derivatives
excited state proton transfer in 2-naphthol derivatives bound to selected sites of proteins, 57
Nitrosyl chloride
temperature dependence of the UV-visible absorption cross-sections of NOCl, 1
NMR spectroscopy
through-space interaction and its influence on the photoreactivity of 2,4-di-(1,2-naphthoquinone-2-diazide-5-sulfonyl-oxy)-benzophenone, 313

OH radical
temperature-dependent kinetics study of the aqueous phase reactions $OH + SCN^- \rightarrow SCNOH^-$ and $SCN + SCN^- \rightleftharpoons (SCN)_2^-$, 17

Organophosphoric acids
degradation of organophosphoric acids catalyzed by irradiated titanium dioxide, 357

Paper
colour reversion of papers made from high yield pulp — a photochromic process?, 109
Periflanthene
photophysical properties of the non-alternant polycyclic aromatic hydrocarbons periflanthene and 1,16-benzoperiflanthene in solution, 27
Perylenequinonoid pigments
photosensitization with anticancer agents.
Perylenequinonoid pigments as new potential photodynamic therapeutic agents: formation of tautomeric semiquinone radicals, 191
Phenol
kinetics of photocatalytic oxidation of phenol on TiO_2 surface, 241
Phenolate ions
excited state electron transfer reactions of tris(4,4′-dialkyl-2,2′-bipyridine)ruthenium(II) complexes with phenolate ions: structural and solvents effects, 83
Phenyl seleno benzoate
photochemical reactivities of phenyl seleno and telluro esters, 49
Phenyl telluro benzoate
photochemical reactivities of phenyl seleno and telluro esters, 49
Phenylacetylenes
diabatic protonation of excited singlet styrenes, 41
Photo-Fries
effect of the sulfonyl group on the photo-Fries rearrangement of sulfonylphenyl acetates, 325
Photo-oxidation
photodegradation of surfactants.
Comparison of the photo-oxidation of the aromatic moieties in sodium dodecylbenzene sulfonate and in sodium phenyldodecyl sulfonate at TiO_2–H_2O interfaces, 251
selective photomethoxylation of 1-methyl-4-methoxycarbonylpyridinium in methanol in the presence of oxygen, 167
Photocatalytic oxidation
heterogeneous photocatalytic oxidation of Mn(II) over TiO_2, 237
kinetics of photocatalytic oxidation of phenol on TiO_2 surface, 241
Photochemical debromination
reinvestigation of photochemical debromination of 9,10-dibromoanthracene and 9-bromoanthracene by amines (triethylamine or *N*,*N*-dimethylaniline), studied by nanosecond laser photolysis in acetonitrile at room temperature, 305
Photochemical decomposition
photochemical decomposition of azo compounds (a spin trap study), 295
Photochemical oxidation
photochemical oxidation of water on a 1 μm Ag^+ zeolite layer, 67
Photochromism
colour reversion of papers made from high yield pulp — a photochromic process?, 109
Photodegradation
photodegradation of surfactants.
Comparison of the photo-oxidation of the aromatic moieties in sodium dodecylbenzene sulfonate and in sodium phenyldodecyl sulfonate at TiO_2–H_2O interfaces, 251
Photodynamic therapy
photosensitization with anticancer agents.
Perylenequinonoid pigments as new potential photodynamic therapeutic agents: formation of tautomeric semiquinone radicals, 191
Photoelectrochemical cell
kinetics of photoinduced electron transfer in a photoelectrochemical cell consisting of thiazine dyes and triton X-100 surfactant, 223
Photogenerated radicals
photochemical reactivities of phenyl seleno and telluro esters, 49
Photohydration
diabatic protonation of excited singlet styrenes, 41
Photoinduced electron transfer
kinetics of photoinduced electron transfer in a photoelectrochemical cell consisting of thiazine dyes and triton X-100 surfactant, 223
Photoinduced graft copolymerization
photoinduced graft copolymerization of acrylamide onto styrene–butadiene–acrylonitrile copolymer, 121
Photoluminescence
photoluminescence of colloidal cadmium sulphide in the presence of aniline — study of the CdS-sensitised photocatalytic reaction, 91
Photolysis
photolysis of benzoin ethers in glassy ethanol, 209
solid state photochemistry of $(C_2H_4(Ph_2P)_2M(N_3)_2$ (M ≡ Ni, Pd, Pt) on Si(111) surfaces, 229
Photomethoxylation
selective photomethoxylation of 1-methyl-4-methoxycarbonylpyridinium in methanol in the presence of oxygen, 167
Photoreactivity
through-space interaction and its influence on the photoreactivity of 2,4-di(1,2-naphthoquinone-2-diazide-5-sulfonyl-oxy)-benzophenone, 313
Photoresists
through-space interaction and its influence on the photoreactivity of 2,4-di(1,2-naphthoquinone-2-diazide-5-sulfonyl-oxy)-benzophenone, 313
Phthalic acid dialkyl ester
photoreaction of phthalic acid dialkyl esters: a flash photolysis study, 33
Polymer films
aggregation of chlorophyll *a* and *b* in polymer films and monolayers, 213
Polymeric photoinitiators
polymeric and polymerisable free radical photoinitiators, 263
Proton transfer
excited state proton transfer in 2-naphthol derivatives bound to selected sites of proteins, 57
Prototropic equilibria
prototropic equilibria of some aromatic amines in micellar solutions of sodium dodecylsulphate, 329

Quenching
quenching of SO_2 fluorescence in a magnetic field: experimental and theoretical analysis, 7

Ru(II) complexes
excited state electron transfer reaction of tris(4,4′-dialkyl-2,2′-bipyridine)ruthenium(II) complexes with phenolate ions: structural and solvent effects, 83
photochemistry of bis(2,2′-bispyridine)(methylene-linked diamine)ruthenium(II) complexes, $[Ru(bipy)_2(L)^{2+}$ ($L=H_2N-(CH_2)n-NH_2$; $n=2$ and 3), 73

Singlet oxygen
hydroxyanthraquinones as sensitizers of singlet oxygen reactions: quantum yields of triplet formation and singlet oxygen generation in acetonitrile, 155
selective photomethoxylation of 1-methyl-4-methoxycarbonylpyridinium in methanol in the presence of oxygen, 167
triplet formation in aminoanthraquinones and its importance for the catalytic fading of dye mixture, 97
Sodium dodecylsulphate
prototropic equilibria of some aromatic amines in micellar solutions of sodium dodecylsulphate, 329
Solvent-shift measurements
determination of electronic transition energies for bare molecules from solvent-shift measurements, 135
Styrene
diabatic protonation of excited singlet styrenes, 41
Substituted benzoquinones
competition between intersystem crossing and intramolecular electron transfer in substituted benzoquinones, 143
Sulfonyl group
effect of the sulfonyl group on the photo-Fries rearrangement of sulfonylphenyl acetates, 325
Sulfonylphenyl acetates
effect of the sulfonyl group on the photo-Fries rearrangement of sulfonylphenyl acetates, 325
Surfactants
photodegradation of surfactants.
Comparison of the photo-oxidation of the aromatic moieties in sodium dodecylbenzene sulfonate and in sodium phenyldodecyl sulfonate at TiO_2–H_2O interfaces, 251

Temperature dependence
temperature-dependent kinetics study of the aqueous phase reactions $OH+SCN^- \rightarrow SCNOH^-$ and $SCN+SCN \rightleftharpoons (SCN)_2^-$, 17
temperature dependence of the UV-visible absorption cross-section of NOCl, 1
Thiazine dye
kinetics of photoinduced electron transfer in a photoelectrochemical cell consisting of thiazine dyes and triton X-100 surfactant, 223
Titanium dioxide
kinetics of photocatalytic oxidation of phenol on TiO_2 surface, 241
Trans–cis photoisomerization
a new sensitive chemical actinometer for time-resolved and continuous photochemistry: the DCM styrene dye, 351
Transient absorption spectra
photoreactions of phthalic acid dialkyl esters: a flash photolysis study, 33
Triplet energy transfer
orientational effects in intramolecular electronic energy transfer in bichromophoric molecules.
Triplet–triplet transfer, 287
Triplet formation
hydroxyanthraquinones as sensitizers of singlet oxygen reactions: quantum yields of triplet formation and singlet oxygen generation in acetonitrile, 155
Triplet studies
comparative triplet studies of 7-amino 4-methyl coumarin laser dye in nafion membranes and in homogeneous solutions, 345

UV illumination
heterogeneous photocatalytic oxidation of Mn(II) over TiO_2, 237
UV radiation
selective photomethoxylation of 1-methyl-4-methoxycarbonylpyridinium in methanol in the presence of oxygen, 167
UV spectra
photochemistry and radiation chemistry of benzocyclobutenone: formation of an *o*-quinoid ketene and its radical cation, 185
UV spectroscopy
through-space interaction and its influence on the photoreactivity of 2,4-di-(1,2-naphthoquinone-2-diazide-5-sulfonyl-oxy)-benzophenone, 313
UV–vis absorption
temperature dependence of the UV-visible absorption cross-section of NOCl, 1

Water
photochemical oxidation of water on a 1 μm Ag^+ zeolite layer, 67

Zeolite
photochemical oxidation of water on a 1 μm Ag^+ zeolite layer, 67
Zeolite slurries
photochemical hydrogen abstraction by aromatic carbonyl compound in zeolite slurries, 53
